

Air 1 is the radio station I most listen too. As a resident of the local community, I would hate to see it removed from the airway.

I think the overall effect on the local community if Air1 were to be displaced by an LPFM broadcaster providing other programming would be bad. I, as well as many I now would resort to listening to cds vs what would be offered on the radio.

I feel Air1 offers the community a variety of music that is acceptable for the entire family, those of all ages and also serves as motivation and inspiration to those who listen. I believe it is in the public's interest to have this station remain on the air.
